I need to reserve time with the clients to make the changes you find are needed in max.gov, since we only have one version of the document. Any estimate when you will be done, so I can make the reservation with Laurel? Needs to be sometime today, as the document has to go to DC by 8 am tomorrow. Thanks,

Sara L. Laumann

I have saved my edits on a separate document. There are not many but still scanning. Sorry hard for me to read 200 pages of stuff I really don't understand. Working hard on it.

Subject: touching base

Hi Tina

All our edits need to be in the document by 8 am Thursday morning so HQ can process the document for the Administrator's signature.

Can you give me a call when you get a chance so we can figure out how to get the edits you find entered in time. With just one version of the document to edit, things are getting challenging to say the least.

Thanks
